

FJ 系列 (FJ Series) 8 3/8 FJ537G IADC:537

Products Specification		
SIZE	mm	212.7
	inch	8 3/8
Thread (REG)		4 1/2
Weight G/N (kg)		41.5/38.5
Height (mm)		450
Package Size (mm)		290X290X530
Seal Type (metal/rubber)		Metal Sealed
Bearing (Journal/Roller)		Journal bearing
Optional Feature		Gauge protection
Recommended Operating Parameters		
RPM (r/min)		220 ~ 50
WOB (KN/mm)		0.45-1.0
Make Up Torque (KN.m)		16.3 ~ 21.7

Feature
Offset crested scoop carbide inserts in inner row, wedge carbide inserts in outer row and inequable spaced inserts arrangement. It is suitable for soft to medium with low compressive strength, such as medium soft shale, medium soft limestone, medium soft sandstone and medium formation with harder and abrasive interbeds, etc.
